10/28/13

www.msnoelke.weebly.com

What's going on? we will be comparing and contrasting texts and reviewing object and possessive pronouns in reading. Students will have the same timed multiplication fact quiz this week, so 0, 1, 2, 5, 9, and 10 facts will be on this week's quiz. It is very important that you only practice the facts we are working on in class. We will continue reviewing measurement with time in math. You can help your child by having them tell the time throughout the day, write a start and finish time for doing chores to find the elapsed time, tell you how many more minutes until ___ o'clock, etc. We will begin measuring mass using the metric system in math as well. We will be learning about animal classification (mammals, birds, reptiles, amphibians, and fish) during our science unit on Environmental Science. Help your child by asking them what characteristics each animal group has.

Thanks to Mrs. Erdman, Mrs. St. Cyr, Mrs. Andrews, Ms. Jason for being chaperones on our field trip last week!

There will not be a snack and study session this week.

There will not be any math/science homework this week, so you can use your time to finish your math project. ☺

Thank you, Mr. Terayuma, for being our mystery guest last week! We still need a few more, so if you are interested in being a mystery guest, please contact Ms. LeBlanc by email or a "secret note" as soon as possible.

Things to Know

Behavior: If students earn more than two conduct grades of a C or if they earn one D or F, they will not be able to participate in the monthly party or field trips. Conduct through November 1 will determine participation in the PBIS party. This Friday is our PBIS party. If your child earned the party, they will be given a Free Dress Pass on Thursday. Conduct from October 22 through November 4 will determine participation in the play Field Trip.
